

## Fundamentals of Plant Design

### TABLE OF CONTENTS

1. Introduction
2. Course Objectives
3. Main Elements of a Plant Project
  - 3.1. Plant Design Wish List
  - 3.2. Disciplines of Plant Design
  - 3.3. Types of Project
  - 3.4. Phases of a Project
4. Project Definition
  - 4.1. Inception
  - 4.2. Defining Objectives
  - 4.3. Site Selection
  - 4.4. Financing
  - 4.5. Government Approvals
  - 4.6. Licensor Search
  - 4.7. Factory Visits

# Plant Design Workshop

---

- 5. Activities Leading to Project Award
  - 5.1. Technical Proposal
    - 5.1.1. Objective
    - 5.1.2. Invitation to Bid
    - 5.1.3. Selection Criteria
    - 5.1.4. Contents
  - 5.2. Commercial Proposal
  - 5.3. Clarification Phase
  - 5.4. Project Award
  - 5.5. Contract Negotiation
  - 5.6. Project Organization
  - 5.7. Kickoff Meeting
    - 5.7.1. Technical Meeting
    - 5.7.2. Project Management Meeting
  
- 6. Basic Engineering Package
  - 6.1. Project Design Basis
  - 6.2. Process Simulation
  - 6.3. Heat and Material Balance
  - 6.4. Process Flow Diagrams (PFDs)
  - 6.5. Equipment List
  - 6.6. Materials of Construction Diagram
  - 6.7. Overdesign Factors
  - 6.8. Fouling Factors

# Plant Design Workshop

---

## 6.9. Equipment Sizing

### 6.9.1. Drums

- Liquid Storage
- Knockout Drums
- Overhead Drums
- Settlers/Separators

### 6.9.2. Reactors

### 6.9.3. Columns

### 6.9.4. Tanks

### 6.9.5. Pumps and Compressors

### 6.9.6. Shell and Tube Heat Exchangers

### 6.9.7. Fired Heaters

### 6.9.8. Air Coolers

### 6.9.9. Filters

## 6.10. Equipment Data Sheets

### 6.10.1. Vessel Sketches

- Drums
- Reactors
- Tray Columns
- Packed Columns
- API Tanks

### 6.10.2. Column Internals

- Tray Specifications
- Packing Specification

### 6.10.3. Pumps

### 6.10.4. Compressors

### 6.10.5. Shell and Tube Heat Exchangers

### 6.10.6. Fired Heaters

### 6.10.7. Air Coolers

# Plant Design Workshop

---

- 6.10.8. Filters
- 6.11. Utility Balances/Utility Diagrams
  - 6.11.1. Steam and Condensate
  - 6.11.2. Cooling Water
  - 6.11.3. Refrigerated Water (Chilled Water)
  - 6.11.4. Fuel
  - 6.11.5. Nitrogen
  - 6.11.6. Electricity
  - 6.11.7. Plant Air
  - 6.11.8. Instrument Air
- 6.12. Piping and Instrumentation Diagrams (P&IDs)
  - 6.12.1. Content
  - 6.12.2. P&ID Reviews
- 6.13. Plot Plan
- 6.14. Interlock Description
- 6.15. Instrument Process Data
- 6.16. Mechanical Guidelines for Special Equipment
- 6.17. Health and Environmental
- 6.18. Process Safety Management
  - 6.18.1. Risk Identification
  - 6.18.2. Protective Layers
  - 6.18.3. Safety Integrity Levels
  - 6.18.4. HAZOP
- 6.19. Flare Loads
  - 6.19.1. Flare Design Capacity
  - 6.19.2. Flare Load Reduction
- 6.20. Value Engineering
- 6.21. Operating Manuals
- 6.22. Analytical Manuals

# Plant Design Workshop

---

## 6.23. Offsite Facilities

6.23.1. Storage Area

6.23.2. Flare

6.23.3. Waste Treatment and Disposal

6.23.4. Power Station

## 7. Detail Engineering

7.1. Civil

7.2. Electrical

7.3. Instrumentation

7.4. Mechanical

7.5. Piping

7.6. Systems

7.7. Plant Layout

7.8. Procurement

## 8. Construction and Initial Operation

8.1. Construction

8.2. Operator Training

8.3. Pre-commissioning

8.4. Commissioning

8.5. Startup

8.6. Acceptance Test

## 9. Special Notes on Plant Revamps

# Plant Design Workshop

---

## 10. Example – New Plant

- 10.1. Inception
- 10.2. Defining Objectives
- 10.3. Licensor Search
- 10.4. Project Design Basis
- 10.5. Request for Budgeting Information
- 10.6. Preliminary Feasibility
- 10.7. Revised Project Design Basis
- 10.8. Licensor Short-listing
- 10.9. Request for Proposal
- 10.10. Technical Proposal
  - 10.10.1. Basis of Design
  - 10.10.2. Process Flow Diagram
  - 10.10.3. Overall Material Balance
  - 10.10.4. Material Balance
  - 10.10.5. Process Description
  - 10.10.6. Equipment Sizing
    - Drum Sizing
    - Reactor Sizing
    - Column Sizing (Valve Trays)
    - Column Sizing (Structured Packing)
    - Heat Exchanger
    - Pumps
    - Filters
  - 10.10.7. Total Installed Cost
  - 10.10.8. Feedstock Consumption
  - 10.10.9. Chemicals and Catalysts Consumption
  - 10.10.10. Utility Consumption

# Plant Design Workshop

---

10.10.11. Byproducts

10.10.12. Variable Cost of Production

10.10.13. Waste Streams

10.11. Clarification Phase

10.12. Plant Visit

10.13. Technical Evaluation

10.14. Commercial Evaluation

10.15. Licensor Selection

10.16. Contract Negotiation

11. Glossary of Terms

12. Other Sources of Information

12.1. Internet

12.1.1. Vendors

12.1.2. Patent Information

12.2. Technical and Trade Magazines

13. Equipment Sizing Parameters

14. TEMA Classification of Shell and Tube Exchangers
